

EMAST Mast camera + laser tyne assist

Improve forklift visibility where operators need it most.

Forklift operators need clear visibility when handling pallets, working around racking, completing floor picks and manoeuvring in busy operating areas.

EMAST combines mast camera vision with laser tyne assist in one practical forklift visual aid system, helping operators see tyne positioning more clearly and work with greater control around stock, pallets, racking and site infrastructure. The system can combine camera views, laser alignment and video logging into a single vehicle-mounted solution.

Mast camera and laser tyne assist combination system

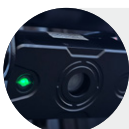

EMAST brings camera vision, laser tyne alignment and optional video logging together to help operators work more accurately around pallets, racking, stock and infrastructure. The system is designed to improve visibility at the point of operation, helping reduce the risk of product damage, racking damage and avoidable handling errors.

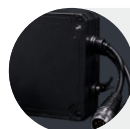

Option between tyne camera and carriage/mast camera views

Up to four cameras per screen, including reverse camera integration

Alignment assist laser projector

SD video logging as standard

Key features

- Mast camera and laser tyre assist combination system
- Wireless video option with 3-shift battery system
- Suitable for counterbalance and reach trucks
- Low-light capability and rugged industrial hardware

Connected Safety: Cloud-based remote logging and access through the Ecloud environment.

Why Ezetech?

20+ Years of safety technology experience.

Ezetech Solutions an Australian authorised dealer and integrator of speciality safety technologies sourced from around the world.

Our service is practical and mobile. We consult, supply, assist with commissioning and provide training, with on-site support available Australia wide, and shipping worldwide.

Industries

- Construction
- Warehousing/Distribution
- Manufacturing
- Logistics & Road Freight
- Mining & Quarries
- Utilities & Waste
- People Transport

Don't wait for an incident to happen
