

SafeAlign Safety Compliance Management

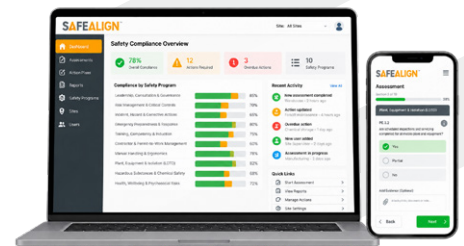

Know where your workplace safety stands.

SafeAlign is a workplace safety platform that helps businesses identify compliance gaps, assess safety practices and prioritise corrective actions.

Designed to work alongside existing safety systems, SafeAlign uses structured assessments aligned with WHS legislation and ISO 45001 to give a clearer picture of safety performance.

From equipment servicing and training to risk management and incident reporting, SafeAlign shows managers what needs attention and where to improve.

Key Features

WHS Compliance Assessments

Structured assessments aligned with WHS legislation and ISO 45001 requirements.

Identify Safety Gaps

Highlight weaknesses in existing safety practices, procedures and controls.

Prioritised Corrective Actions

Identify areas requiring attention and help safety managers plan improvements.

Safety Performance Dashboards

Visual reporting and traffic-light indicators provide a clear overview of compliance across key safety programs.

Mobile & Desktop Access

Complete assessments on-site and review safety performance through desktop reporting.

Ongoing Safety Reviews

Track improvements and support regular compliance assessments across workplace operations.

How SafeAlign Works

Assess → Identify → Prioritise → Improve

SafeAlign assesses ten core workplace safety programs, covering areas such as risk management, incident reporting, training, contractor management, emergency preparedness and plant safety.

Assessment results highlight gaps and provide practical direction for corrective action, helping safety managers focus on the areas requiring the most attention.

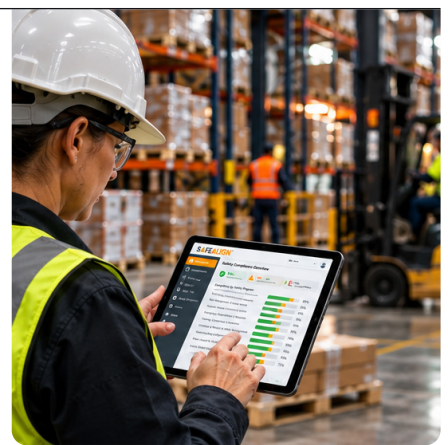

Supporting Safer Workplaces

SafeAlign helps businesses strengthen existing safety practices, demonstrate due diligence and improve oversight of workplace risks.

By identifying weaknesses before they contribute to incidents, SafeAlign supports a safer working environment for employees, contractors, visitors and vehicle operators.

Connected Safety: Cloud-based remote logging and access through the Ecloud environment.

Ezotech is an authorised dealer of SafeAlign.

Why Ezotech?

20+ Years of safety technology experience.

Ezotech Solutions an Australian authorised dealer and integrator of speciality safety technologies sourced from around the world.

Our service is practical and mobile. We consult, supply, assist with commissioning and provide training, with on-site support available Australia wide, and shipping worldwide.
